- Design Criteria
- Environmental Requirements
- Staging Areas
- Project Accessibility
- Construction Schedule
- Construction Disincentive & Contract Time
- Question And Answers

Project Description: Project Nos. 829-32-0001 & 064-30-0033 are a 5.028 mile arterial new two-lane, fully controlled access, elevated highway on a new location in Lafourche Parish, Louisiana, approximately 50 miles south of the New Orleans metropolitan area. The bridge is elevated above the 100-year base flood elevation and has a typical width of 42'-6". This project has three superstructure alternates and will require "top down" construction techniques as required by the Environmental Impact Statement.

Project No. 829-32-0002 is a 3.987 mile arterial new two-lane, fully controlled access, elevated highway crossing Bayou Lafourche through Leeville with interchanges north and south of Leeville on a new location in Lafourche Parish, Louisiana, approximately 50 miles south of the New Orleans metropolitan area.

Contacts: For pre-meeting questions please contact David Miller (DOTD) at (225) 379-1309 or Bill Huffstetler (Wilbur Smith) at (225) 928-6341 or Doug Gremillion (Wilbur Smith) at (225) 928-6346.
